as application videos or
modes of action

Easy & comfortable. Boosts collagen synthesis, regenerates and soothes – ideal for continued home use.

Skin Smoothing

Composition

Mask: Native collagen fibers form a three-dimensional network. The highly concentrated native collagen has a high waterbinding capacity, ensuring a continuous supply of the active ingredients and an intensive moisture transfer to the skin. **Native collagen peptides** are recognized in the skin, act as signal for collagen stimulation and promote skin regeneration and repair. **Native collagen molecules** strengthen the skin's moisturebinding capacity, support the smoothing of wrinkles and balance the skin's surface for a healthy protection.

Activation Liquid 17SF: Hyaluronic Acid: Plumps and replenishes skin's moisture depots.

LIFTONIN™-Xpress: Minimizes wrinkles and immediately tightens skin.

Inci

Mask: · Collagen · Rayon* · Paraffin* · Hydrogenated Rosin · Hydrogenated Polyisobutene · PPG-15 Stearyl Ether · PEG-40 Sorbitan Peroleate · BHT

Activation Liquid: · Aqua (Water) · Butylene Glycol · Glycerin · Sodium Lactate · Sodium Hyaluronate · Lactobacillus Ferment** · Allantoin · Saccharide Isomerate · Pullulan · Porphyridium Cruentum Extract · Hydroxypropyl Methycellulose · Polyglyceryl-10 Laurate · 1,5-Pentenediol · Lactic Acid · Citric Acid · Sodium Citrate · Parfum (Fragrance)

Scientific Data

Native Collagen Mask Pre-Soaked shows an **immediate and lasting moisturizing effect compared to the biocellulose benchmark. Dermatologically tested.**

Content

1 pre-soaked face mask for one time use. Caucasian or Asian shape.

Shelf Life

3 years in original, unopened packaging

Storage

Room temperature or a cool place. Protect from heat and direct sunlight exposure

* Rayon is used for lamination of mask, Paraffin is used for adherence of top layer to collagen layer, both not in contact with skin (back side of the mask). ** Lactobacillus Ferment is a natural preservative.
