

Native Collagen Mask & Vitamin C

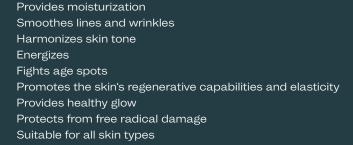

Skin Concerns

Dehydrated skin
Fine lines and wrinkles
Uneven skin tone
Irritated skin
Prematurely and photo-aged skin
Hyperpigmentation and age spots
Loss of elasticity
Smoker's skin

Skin Need

Regeneration

The Benefits

Please scan for detailed product information such as application videos or modes of action

Energizes the skin and protects from free radical damage.

Composition

Native collagen fibers form a three-dimensional network. The highly concentrated native collagen has a high waterbinding capacity, ensuring a continuous supply of the active ingredients and an intensive moisture transfer to the skin. Native collagen peptides are recognized in the skin, act as signal for collagen stimulation and promote skin regeneration and repair. Native collagen molecules strengthen the skin's moisturebinding capacity, support the smoothening of wrinkles and balance the skin's surface for a healthy protection. Stabilized Vitamin C (derivate): Ascorbyl-Glucoside. Vitamin C helps to stabilize collagen structures and activates collagen synthesis. It protects cells and other skin structures by deactivating free radicals. It suppresses tyrosinase activity and accelerates the differentiation of keratinocytes, ensuring the function of the skin barrier and preventing skin water loss.

Inci

 $\cdot \mbox{ Collagen } \cdot \mbox{ Ascorbyl Glucoside } \cdot \mbox{ Hydrogenated Polyisobutene } \cdot \mbox{ PPG-15 Stearyl Ether } \cdot \mbox{ PEG-40 Sorbitan Peroleate } \cdot \mbox{ BHT } \cdot \mbox{ Cl 19140 (FD\&C Yellow No.5)} \cdot \mbox{ Cl 75470 (Carmine)}$

Scientific Data

- +59% Increase in skin moisture (Corneometry, activated with Activation Liquid 17SF)¹
- -38% Decrease in skin roughness (PRIMOS, activated with Activation Liquid 17SF)1
- -27% Reduction of redness (Chromometry, activated with water)2

Dermatologically tested

Color

Yellow

Shelf Life

3 years in original, unopened packaging

Storage

Room temperature. Protect from dampness and direct sunlight exposure
