

Native Collagen Serum Mousse

Skin Concerns

Decrease of skin barrier function
Fine lines and wrinkles
Dehydrated, dry skin
Dark spots
Red, irritated and damaged skin

Skin Need

Regeneration

The Benefits

Soluble native collagen molecules provide immediate & long-lasting hydration
Visibly harmonized & regenerated skin
Provides plumped & firmed skin
Smooths lines & wrinkles
Niacinamide strengthens the skin barrier function & protects from oxidative stress

The sensorial Native Collagen Serum Mousse experience for effective skin regeneration.

Composition

The Native Collagen Serum Mousse supports the natural skin regeneration process with its active ingredient of **soluble native collagen molecules** that improve skin's high water-binding capacity, replenish moisture depots, promote skin firmness and smooth lines and wrinkles. **Niacinamide (Vitamin B3)** promotes skin renewal, strengthens the skin barrier and reduces transepidermal water loss (TEWL). In addition, Niacinamide protects skin from oxidative stress and protein damage. Studies have shown that niacinamide prevents pigments from surfacing on the skin, by inhibiting melanosomes transfer.³ Furthermore, it has been described to reduce hyperpigmentation and light induced redness.³

Inci

Aqua (Water) · Glycerin · Squalane · Vitis Vinifera (Grape) Seed Oil · Carbon Dioxide · Niacinamide · Tocopheryl Acetate · Sodium Lactate · Soluble Collagen · Leuconostoc / Radish Root Ferment Filtrate · Monosodium Citrate · Myristyl Glucoside · Sodium Levulinate · P-Anisic Acid · Sodium Hydroxide · Acacia Senegal Gum · Xanthan Gum · Lauryl Glucoside · Polyglyceryl-6 Laurate · Lactic Acid

Scientific Data

Clinical Data on soluble native collagen molecules have shown the following effect*:

- 26%** Reduction of lines and wrinkles after 4 weeks¹
- 21%** Decrease of wrinkle depth¹
- +26%** Increase in skin elasticity after 4 weeks¹
- +19%** Increase of hydration after 4 weeks¹

Clinical and Scientific Data on Niacinamide has shown the following effects:

- 27%** Reduction of Transepidermal Waterloss (TEWL) after 4 weeks²
- 68%** Inhibition of melanosomes transfer after 7 days³

Appearance

Unique and modern application format, sensorial and playful mousse texture and high-quality active ingredients: Native Collagen and Niacinamide

Content

30ml, Mousse, Aerosol

Shelf Life

3 years in original, unopened packaging

Storage

Store at room temperature below 25°C (77°F). Do not expose to temperatures exceeding 50 °C (122 °F). Keep away from heat, direct sunlight, hot surfaces, sparks, open flames and other ignition sources.

Application

Shake well before use. Spray hazelnut sized amount into hands and apply to your face. Use same amount for neck and décolleté. Allow serum mousse to soak into skin and gently massage until completely absorbed. Always hold can upright while usage.

Warning: Pressurised container - May burst if heated. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50° C / 122° F. Store at room temperature (below 25° C / 77° F). Not to be used for children under 3 years of age.
