modes of action

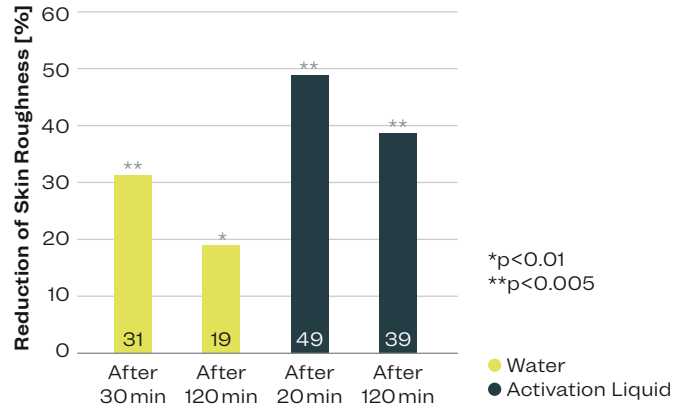

Gives an instant lifting effect to the eye zone. Plumps and fills lines and wrinkles.

Intense Smoothing Effect

The skin appears younger due to a significant reduction of skin roughness after one application and lasting effect.

Composition

- Alginate is a **brown algae extract** that acts as delivery system into the skin and can absorb more than several hundred times of its weight.
- **Sea minerals** like calcium stimulate cell energy activity & membrane strength resulting in more dense and firmer skin.
- Directly applied **calcium** stimulates the production of aquaporins (water channels) leading to improved skin hydration and moisture transfer.
- A **low pH-level** regulates the skin's barrier function and helps to maintain a healthy skin microbiome.
- All of our Natural Algae products are cosmetic grade certified. They are **100% vegan, kosher, halal & biodegradable**.

Inci

Eye mask: · Algin · Cellulose Gum · Glycerin
· Calcium Sulfate · Caprylic/Capric Triglyceride
· Citric Acid · Sorbitol

Activation Liquid 13L: · Aqua (Water)
