product information such
as application videos or
modes of action

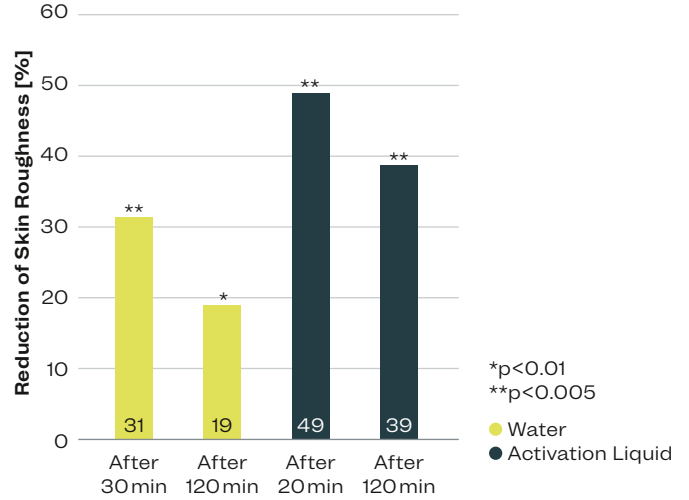

Lifts and contours the skin, plumps and fills wrinkles. Revitalizes and hydrates intensively.

Intense Smoothing Effect

The skin appears younger due to a significant reduction of skin roughness after one application and lasting effect.

Composition

- Alginate is a **brown algae extract** that acts as delivery system into the skin and can absorb more than several hundred times of its weight.
- **Sea minerals** like calcium stimulate cell energy activity & membrane strength resulting in more dense and firmer skin.
- Directly applied **calcium** stimulates the production of aquaporins (water channels) leading to improved skin hydration and moisture transfer.
- A **low pH-level** regulates the skin's barrier function and helps to maintain a healthy skin microbiome.
- All of our Natural Algae products are cosmetic grade certified. They are **100% vegan, kosher, halal & biodegradable**.

Inci

· Algin · Cellulose Gum · Glycerin · Calcium Sulfate · Caprylic/Capric Triglyceride · Citric Acid · Sorbitol

Scientific Data

-49% Decrease in skin roughness (PRIMOS)¹
+59% Increase in skin moisture (Corneometry)¹
Dermatologically tested

Color

White

Shelf Life

3 years in original, unopened packaging

Storage

Room temperature. Protect from dampness and direct sunlight exposure
