

Overnight Detox

Natural Algae Massage Gel Pure Extra

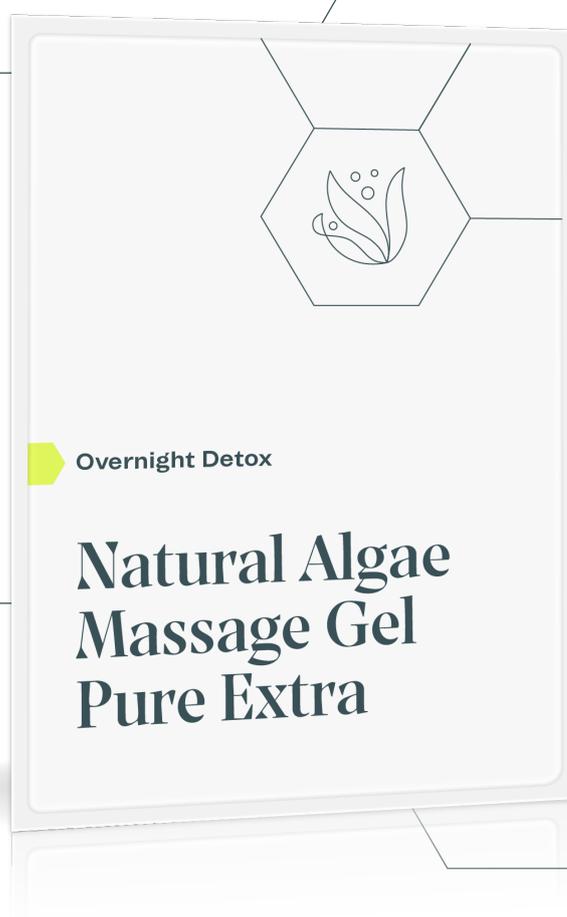

Detoxify and hydrate your skin with the power of natural algae and ocean-friendly ingredients.

The Natural Algae Massage Gel Pure Extra comes in the form of lyophilized pads made of brown algae extract (calcium alginate). When activated with water or Activating Liquid 17SF, the pads transform into a lubricant massage gel. You can either activate it in a bowl or directly on the skin.

The gel detoxifies and refines the skin by binding corneocytes and bacteria during application. After rinsing off the gel, it removes toxins and dead skin cells, leaving the skin purified, smooth, and glowing. It deeply hydrates, re-balances, and revitalizes the skin, providing a healthy, blemish-free complexion.

Professional- &
Home Use

Skin Concerns

- Toxicified, overloaded skin
- Acne-prone skin/clogged pores
- Rough and dull skin
- Dehydrated and oily skin
- Signs of premature aging

The Benefits

- Detoxifies and hydrates the skin, removing toxins and dead cells for a refreshed complexion.
- Purifies acne-prone skin, leaving it smooth, balanced, and blemish-free.

Natural Algae Massage Gel

Pure Extra

Active Ingredients

Brown Algae Extract (Calcium Alginate): Detoxifies and hydrates the skin.

Mannitol: Protects against blue light exposure and hydrates the skin.

Triglyceride Oil: Helps prevent excess oil production, suitable for acne-prone skin.

A low pH level supports the skin's barrier function and helps to maintain a healthy skin microbiome.

The massage gel is free from preservatives, fragrances, mineral oils, silicones & colorants. It is vegan & ocean friendly.

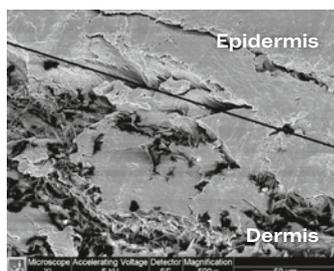

Our product is biodegradable and cosmetic grade certified.

This extraclean formulation does not need PEG/PPG/BHT but contains Mannitol to protect against blue light as well as Triglyceride Oil to help preventing oily skin and is suited for acne prone skin.

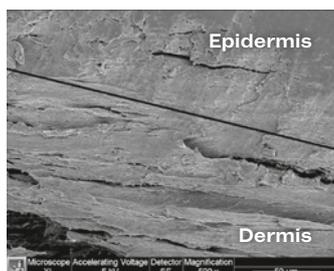

INCI

Algin · Cellulose Gum · Tricaprylin · Caprylic/Capric Triglyceride · Rayon · Mannitol · Calcium Alginate
